A KINDERGARTEN THAT HAS MADE US GROW OUR SOUL

As if it were the last piece of the puzzle that fits perfectly, that's how this journey has been for us. An indispensable and fundamental piece to be better companions of boys and girls.

You have given us many fundamental values such as: time, trust and calm.

We have felt that the school is much more than four learners. That the school there feels outside. That what the outside holds is valuable and that it helps children understand their roots.

You have made us see through their eyes their reality, their school, their roots, their home.

We have observed how they relate, how they get excited, how they learn...

And it has been W O N D E R F U L .

Every outdoor space we have visited has been incredible. See that those children enjoy in that environment. That adults can sit down to read a story calmly, that they can enjoy multiple respectful and natural opportunities.

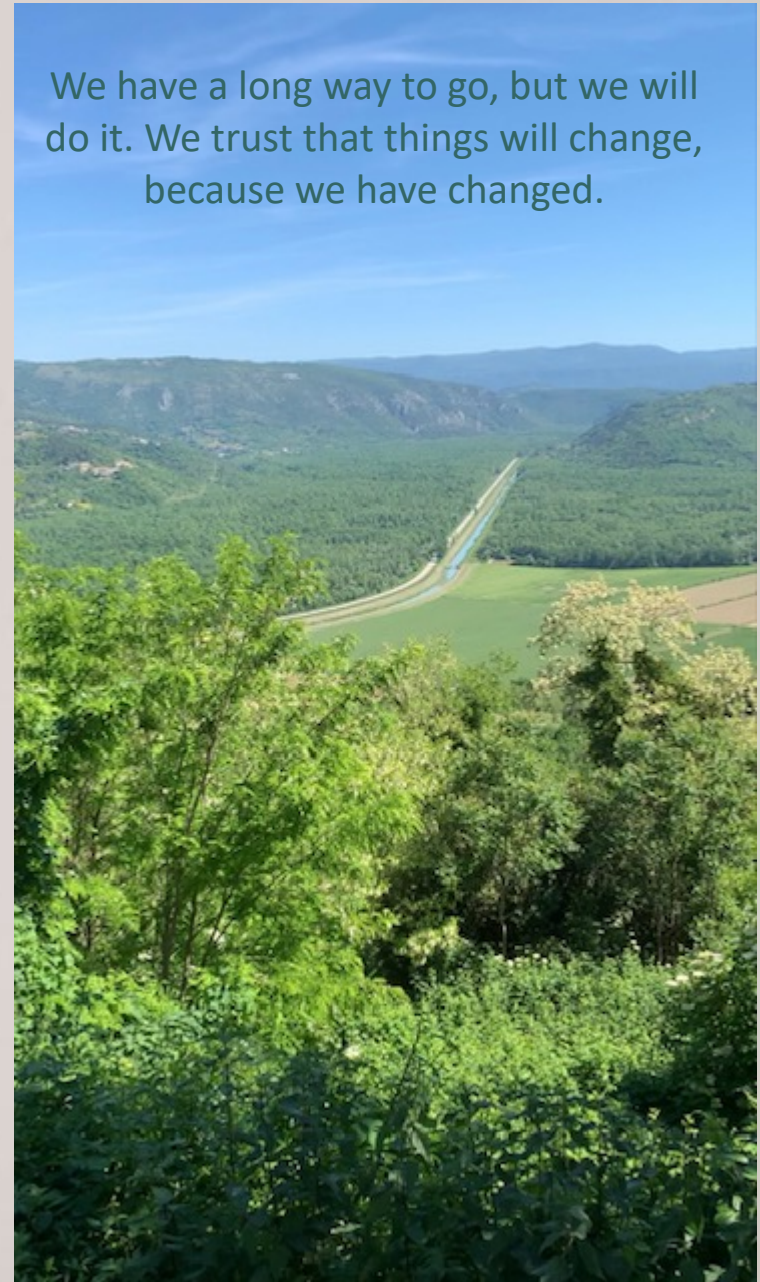

In every kindergarten we have seen that children have wings to fly.

They feel free, and that is a true privilege. But also the teachers, they have transmitted that freedom to us in times and in programs that aren't too complex, like the ones we have here in Spain.

We have a long way to go, but we will do it. We trust that things will change, because we have changed.

THANK YOU FOR OPENING THE DOORS
OF YOUR HOME FOR US, FOR
MAKING US FEEL AT HOME.

OLGA BAN WILL ALWAYS BE A PART OF OUR HEARTS.

KISSES AND HUGS FROM MONICA, NURIA AND ESTHER
